

🚀 POC 1 — AI CUSTOMER SUPPORT CHATBOT (HIGH-CONVERSION)

Example 1

Template message + WhatsApp chatbot +
use of a 24-hour customer care window

EXACT SCENARIO (WHAT YOU ARE BUILDING)

 Build a **Chatbot for a Jewellery Brand** (high-ticket niche)

Use Case:

- Customer visits website
- Asks:
 - “Do you have bridal sets under ₹2 lakh?”
 - “Show me gold necklaces”
 - “What is your store location?”

👉 Bot answers using:

- Product catalog
- FAQs
- Store info

👉 BONUS:

- Capture leads → Name + Phone
- Push to Google Sheet / CRM

SYSTEM ARCHITECTURE (SIMPLE)

- Frontend → Chat widget
- Backend → Python / Node
- LLM → OpenAI / local model
- RAG → store product + FAQ data
- DB → simple JSON / vector DB

ASSIGNABLE TASK LIST

◆ PHASE 1 — DATA SETUP (Day 1)

Task 1: Create Demo Dataset

- 20 jewellery products:
 - Name
 - Price
 - Category (bridal, necklace, etc.)
- 15 FAQs:
 - Store timings
 - Location
 - Offers

👉 Output: JSON file

◆ PHASE 2 — RAG SYSTEM (Day 2–3)

Task 2: Build Knowledge Retrieval

- Convert data into embeddings
- Store in vector DB (FAISS / Chroma)

Task 3: Query Pipeline

- User question → search relevant data
- Send to LLM with context

👉 Output: Working backend API

◆ PHASE 3 — CHAT INTERFACE (Day 3–4)

Task 4: Build UI

- Simple web chat (React / HTML)
- Input + response window

Task 5: Connect API

- Chat → backend → response
-

◆ PHASE 4 — LEAD CAPTURE (Day 5)

Task 6: Add Lead Flow

- If user shows buying intent:
 - Ask: Name + Phone
 - Store in:
 - Google Sheets / DB
-

◆ PHASE 5 — BUSINESS LOGIC (Day 6)

Task 7: Intent Handling

- Product queries

- Store info
 - Lead capture trigger
-

◆ PHASE 6 — POLISH (Day 7)

Task 8: Improve Responses

- Add:
 - Friendly tone
 - Sales tone
 - Suggestions
-

FINAL DELIVERABLE

Employee must give you:

- ☒ Live demo link
 - ☒ Working chatbot
 - ☒ Sample dataset
 - ☒ Lead capture working
 - ☒ Clean UI
-

STRICT QUALITY RULES (IMPORTANT)

Do NOT accept if:

- ☒ Bot gives generic answers
- ☒ No product-based replies
- ☒ No lead capture
- ☒ Slow response

Must have:

- ☒ Context-aware answers
- ☒ Business tone
- ☒ Real use-case feel
